Core Competencies

STP Ventures, LLC is a cybersecurity firm specializing in security-centric helpdesk & managed services. Enabling private sector organizations & companies to better deliver their missions by providing 100% managed helpdesk & related services. Our expert team manages technology and cybersecurity needs, enabling companies to focus on their core competencies without worrying about IT needs.

- Helpdesk staffed with hardened cybersecurity experts
- Examines every ticket for possible indicators of a cyber attack / breach
- Keeps cybersecurity at forefront of your IT
- Industry neutral, can support any vertical
- Expert response in record times
- Vendor Management on your behalf, focused on enabling securing vendors that work for you
- Provides single point of contact for all IT & security needs

Differentiators

- Helpdesk & other services developed based on real-world observations of business needs
- Understanding of global cyber-scape and how it translates to needs for end users & IT management
- Consolidated offerings that cover all IT and security needs
- Allows for lower budget expenses for IT & cyber security
- Fast implementation, ready to deploy when you are
- 100% USA based business & employees
- Female owned small business
